

## TEA DIAMOND®

**An** unusual way to package the finest teas is the new pyramid-shaped tea bag from EILLES TEE. We call it the „serving revolution“. The filigree weave gives leaf and broken tea the necessary room for maximum contact with the water. Ultimate development possibilities for exquisite tea pleasure. The Tea Diamond® is easy to use and drips less than conventional bags. It also looks quite elegant with its glossy, futuristic material.

The wrapped diamond is particularly suited for the self-service area, the breakfast buffet in restaurants, offered at the coffee shop counter, in the conference area of a hotel and as a tea collection in rooms, for preparation by the guest with a kettle. A small selection of 4 types thereby increases the pulse of every tea connoisseur. The perfect start to the day or a relaxing finish.

You can receive additional information, including about our tea menus and posters as sales promotion materials, as well as presenters and dispensing equipment, from our expert gastronomy consultants.

# THE ORGANIC RANGE

as 200 to 300 ml mug/glass servings

With its high-quality selection, EILLES enables hotels and restaurants to offer a complete range of organic teas or complement an existing conventional range. All our teas are certified under DE-003-ÖKO. Six varieties also bear the fair trade logo. Where possible, we source our teas from fair trade certified plantations, paying a fair price to ensure that plantation workers benefit from favourable long-term working and living conditions. For more information, please visit [www.fairtrade-deutschland.de](http://www.fairtrade-deutschland.de)
